Test

Q. 4, 5

The only weak entity in this model Enrollment. This is because it does not have a Primary key consisting of attributes of its own, but has 2 Foreign keys taken together as its - Primary key. Therefore, the entity's existence depends on the existence of the other 2 entities. Remaining all entities are strong. There is no data redundancy occurring in this model. All the tables have the necessary and relevant information stored in them and where there is a need, foreign keys are made use to reference data in other relations.
